The park itself is quite large, but it's all well marked. The children's area was open, except for the splash, and even the toilets were open. They have many different areas for all age children. We thought it was going to be a busy Saturday, but there were only two kids left. They have picnic tables with lids for large groups and also a few tables around the gaming structure. It's a great park. Date experience: August 2020MM75 wrote a review of the Aug 20191 postThat was a very nice location. Football fields have been well researched. The event's organizers have done a good job, too. I didn't see much of the potential for concessions. That's typical of us. It's a great place to host a tournament. There were chairs, but there wasn't enough. There were shelters with benches, but they were mostly occupied. Date experience: August 2018Illispain wrote a review Aug 2018Litchfield, Connecticut17 contributions2 helpful voices Really loved canine park. One side is completely open a huge field and the other side has a lot of beautiful trees and benches. A well is available in each paddock. Both pens have mature trees & installed benches. This was Lexington's 2nd Dog Park. It was originally an unswollen area running along Leestown Road in Masterson Station. We tried to raise money to create a safe, fenced environment for dogs. In July 2003, the first phase of the new dog park area was completed. This included a full 6 acres with mature trees, all of which were enclosed in horse-farm-style fences with a networked back. In April 2006, a hydrant was added to provide fresh, cold water on those hot summer afternoons. The second paddock was fenced off in July 2010, with a total enclosure of 15 hectares! Soon after, a hydrant was installed in the paddock.
